Djibril Djiré

Software Engineer & Frontend — React, Next.js, TypeScript

Lomé, Togo · djibrilpendadjire@gmail.com · +228 79 09 80 80 · linkedin.com/in/djibril-djiré-025554245

PROFESSIONAL SUMMARY

Frontend-focused engineer with nearly 5 years of professional experience building production web and mobile applications with React, Next.js, TypeScript and React Native. Shipped React Native apps to the App Store and Google Play, including a mobile app with 100K+ downloads, and built full-stack web platforms integrating REST APIs. Comfortable working with designers, backend engineers and product teams, and used to owning features from UI to delivery. Web development trainer since 2023. Fluent French, strong written English.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS (hands-on exercises)
- **State management:** Redux, Zustand, Context API
- **Mobile:** React Native, Expo (App Store and Google Play releases)
- **Testing:** Jest, Vitest, Playwright
- **Backend & APIs:** REST API integration, Node.js, PHP, Laravel
- **Tools:** Git/GitHub, code review, collaboration with design and backend teams

PROFESSIONAL EXPERIENCE

Frontend Developer — Kabakoo · January 2022 – Present

- Build and maintain the Kabakoo mobile app (React Native / Expo), published on the App Store and Google Play. The app has passed 100K downloads.
- Collaborate daily with designers and backend engineers to turn designs into reliable, responsive interfaces.
- Integrate frontend features with REST APIs and handle debugging, builds and release cycles.
- Built mobile apps for partner organizations, including CFPM for the students of a training center in Mali.

Web Development Trainer — Kabakoo · 2023 – Present

- Train learners in HTML, CSS, JavaScript, React and PHP.

SELECTED PROJECTS

Kabakoo App — React Native, Expo
Mobile learning app released on the App Store and Google Play, with over 100K downloads. I develop and maintain it alongside designers and backend engineers.

CFPM App — React Native
Mobile application published on the App Store and Google Play, built by Kabakoo for a training center in Mali to serve its students.

bamako.ai (Season 1) — React, PHP
Built both the React frontend and the PHP backend of the platform. Web app for the yearly bamako.ai event: participants played to earn points before the final day, with a real-time leaderboard ranking them against each other.

CICB GO (bamako.ai event) — React, Socket, Zustand
Interactive game built with my team for the bamako.ai event, where participants played to earn reward points while discovering Malian and African culture. It reached over 20K users in 5 days. I worked on the frontend.

EDUCATION

Licence (Bachelor's) in Computer Science — Institut Universitaire de Gestion de Bamako — 2017–2020

LANGUAGES

- French — fluent (written and spoken)
- English — strong written, conversational spoken
